

TYROS ACADEMY · EXECUTIVE EDUCATION

Executive Education for Financial Leaders

*Two focused awareness programmes for the people decisions
and digital risks that matter to Risk, Compliance and HR.*

TWO FLAGSHIP PROGRAMMES

DORA Awareness & AI Literacy

Two clear, focused programmes rather than a scattered catalogue — designed for the same decision-makers: Risk, Compliance, HR and L&D.

01 — DORA AWARENESS

Sensitising non-technical teams to digital risk.

For banks, insurers, fintechs and asset managers.

Incidents, critical third-party providers, and the right reporting reflexes — delivered without technical jargon, for business teams who are not IT specialists.

Cyber reflexes

GDPR

02 — AI LITERACY & RESPONSIBLE USE

Using AI responsibly, securely and in line with the rules.

For financial institutions and companies deploying AI.

Practical use, security and internal compliance — for business teams working with AI day to day, not engineers.

AI Act

AI governance

Built for executive agendas

Success comes from understanding people, whatever their role — and everyone should leave more confident.

Corporate programmes

Tailored to your organisation's context, risk profile and regulatory obligations — from a single briefing to a continuous annual programme.

Audience

Non-technical business teams, managers, HR and L&D — no prerequisites.

Formats

1h30, 2h or half-day sessions, delivered live by Tyros Group via Microsoft Teams — on site or remotely.

Follow-up

Each session can include a comprehension quiz and a documentary record for your organisation — supporting evidence, not a certification.

ENQUIRIES

Arrange a session for your organisation

contact@tyros-group.com · tyros-group.com — Each enquiry is treated in confidence.
